

DR. NASH SALEH

**Collegiate Associate
Professor**

I have been with UMGC since 2021, teaching Math and Science in Qatar. I have held math and science teaching assignments in the U.S. at the University of Houston and Antelope Valley College for the past 18 years.

I received a BS and MS in Chemical Engineering and a Ph.D. in Environmental Engineering from Texas A&M University. My research and publications focus on Bio Environmental Engineering and bioremediation.

I had previous US engineering duties in both the private and public sectors. My teaching philosophy, which evolved from my professional engineering and teaching experience, promotes real-world applications and case studies to help students relate theory to practice.

I employ learning techniques including teamwork, critical thinking, and problem-solving to motivate students to achieve their goals. My interests include traveling, outdoor camping, hiking, and fishing. I have a diverse background and am passionate about learning and experiencing other cultures.

PRONOUNS

he, him

SUBJECT AREAS

Mathematics
Statistics
Environmental Science

EDUCATION

PhD, Environmental Engineer, Texas A&M
University Kingsville, Texas
MS, Chemical Engineer, Texas A&M
University Kingsville, Texas
BS, Chemical Engineer, Texas A&M
University Kingsville, Texas

TEACHING LOCATIONS

Al Udeid, Qatar
