

PROF. RAJALEKSHMY VIJAYAN

Adjunct Associate Professor

I have been a faculty member at UMGC in Bahrain since 2010, teaching Mathematics and Statistics. Over the past 30 years, I have taught Mathematics and Statistics to students at various levels, from high school to postgraduate, in both India and Bahrain.

I excel at creating engaging instructional programs that address individual learning needs, support at-risk students, and make learning enjoyable for all ages. My teaching methodology emphasises real-world applications to enhance students' understanding and skill development.

Outside of the classroom, I enjoy reading, travelling, and gardening.

PRONOUNS

she / her / hers

SUBJECT AREAS

Mathematics
Statistics

EDUCATION

M Sc Mathematics, Calicut University, India
B Sc Mathematics, Calicut University, India
B Ed, Bachelor of Education, Calicut University,
India
